

INSURANCE REAUTHORIZATION & NEUROLOGICAL CARE

NEUROLOGICAL CONDITIONS

cause a range of symptoms

involuntary movements or jerking

seizures

difficulty with speech

cognitive impairment

Neurological conditions are serious,
**OFTEN REQUIRING
ONGOING MEDICATION**

Yet insurers require clinicians to repeatedly justify patients' need for the same medication,
**EVEN FOR
INCURABLE
CONDITIONS**

INSURANCE REAUTHORIZATION

burdens clinicians, delays medication and interferes with patient-centered care
