

# STEPS TO ELIMINATING HEPATITIS C TAILOR STRATEGIES TO AT-RISK POPULATIONS

## TO ELIMINATE HEPATITIS C,

policymakers should consider the needs of at-risk populations:

Incarcerated people

Veterans

Recovering users of injection drugs

### INCARCERATED PEOPLE

need **greater access** to hepatitis C testing and curative treatment.

### VETERANS

### VETERANS

need **expanded VA coverage** policies for hepatitis C treatment.

### RECOVERING USERS OF INJECTION DRUGS

would benefit from having screening integrated into **health care visits**.

## ALL HEPATITIS C PATIENTS

NEED ACCESS TO TREATMENT.
