

# BIOLOGICS IN CANCER CARE

## Innovator biologics and biosimilars

offer patients new options to treat cancer or manage symptoms.

Biosimilars can **help patients** facing:

BREAST  
CANCER

CERVICAL  
CANCER

CHEMOTHERAPY-  
RELATED ANEMIA

COLORECTAL  
CANCER

GLIOBLASTOMA

IMMUNE SYSTEM  
SUPPORT

LUNG  
CANCER

NON-HODGKIN'S  
LYMPHOMA

RENAL CELL  
CARCINOMA

STOMACH  
CANCER

Without access to the right treatment, patients may face:

WORSENING  
SYMPTOMS

DETERIORATING  
QUALITY OF LIFE

CANCER  
PROGRESSION

**In the fight against cancer,  
every second counts.**

Patients need timely access to treatment.
