

GETTING A LUNG UP ON THE COMPETITION

COUGH

WHEN KIDS START SHOWING SYMPTOMS OF ASTHMA,

they should see a health care provider.

CHEST PAIN

SHORTNESS OF BREATH

Asthma can have a lifelong impact.

WHEEZING

IF ASTHMA IS DETECTED EARLY, FAMILIES AND PROVIDERS CAN IDENTIFY:

- The type of asthma a child has
- Which treatment option is the best for them

WHEN CHILDREN RECEIVE TREATMENT EARLY, IT CAN:

Improve sleep

Reduce exacerbations

Lead to fewer ER visits

Lower risk of long-term effects

EARLY ASTHMA DIAGNOSIS CAN HELP KIDS BREATHE EASIER.
